

! All natural gas ranges MUST comply with manufacturer’s installation requirements for appliance being installed and applicable local codes.

Measurement Instructions	Customer Measurements
A Measure from bottom of cabinet to top of cooking surface	= _____ in.
B Measure from bottom of the side cabinet to top of counter-top	= _____ in.
C If wall is on either side of range, measure side of range to wall	= _____ in.
D Measure cabinet over range top from wall to face of cabinet	= _____ in.
E Measure from the floor to the top of counter-top	= _____ in.

Common Clearance Requirements	
A	30” from top of cooking surface to bottom of cabinets or other combustible material
B	18” Minimum
C	6” Minimum to combustible material
D	13” Maximum

NOTE:
For microwaves mounted above gas ranges, ALWAYS consult microwave manufacturer requirements for clearances prior to installation.

Some standard local codes may require a minimum of 66” from the floor to the top of the microwave, this will typically allow for at least 13.5” minimum clearance between the cook-top and the bottom of the microwave.
